## SHOW AND GO 2015

Well we did it again. Another Show and Go is in the books. I have to admit I was a little worried three weeks before the show when our registration was only around 600. I didn't know what to think, but low and behold people signed up at the last minute. Not only did we sell out at 1000 cars, we actually got 1017 entries paid. The last few days before the show were crazy with people trying to get in. This year people were able to sign up on line with PayPal, something we have wanted for years. Social media also played a major roll with everyone sharing it on Facebook. We had several new participants that have never heard of Show and Go come out. Most of them came from Orange

## Old Farts Ride of the Issue

### **Jim Grady's 1966 Mustang.**

I am the third owner. Purchased from my ex mother in law for \$875.00. It was to be my daughter Jessica's first car, but it never made it. Money and time did not allow it, so she got a driver and the mustang took a back seat. I tinkered on it off and on..... Once I knew the car was going to be mine, since she had a car, I went in a different direction on its restoration.

The car was completed after my Dad was brought home for hospital for lung cancer and put on hospice. He made the comment that "that's a project I'll never see done or get a ride in"..... I picked up the pace to complete it. The maiden voyage was to the Arlington Chili Cook-off Car Show with him. Even won "best driver" award. I gave him the trophy where he displayed it proudly on the center of his mantle until he passed.....

I always liked the TRANS AM racing series, so this is somewhat of a semi clone. The suspension was all rebuilt with shorter / stiffer springs. Upper control arms

...continued from page 1

**Show and Go 2015**

County and the Los Angeles area. Speaking with several of them they had so much fun not only would they be back, but they were going to share it with the clubs they hang out with. We can't ask for anything more than that.

Friday night at Show and Go just keeps growing. It has really turned into a fun night. As always it is a little hectic shutting the streets down but once they are it is pure hot rod heaven. The police that have worked our show for years told us they think Friday night was way more crowded than it has ever been. While cruising around, the sidewalks were full all the way from the Fox Theater way down to Carls Jr. The best part about it is everyone is there to have fun so we have zero problems. It is such a homecoming and seeing people that you have not seen in years. The tunes were rocking and the smiles on the people's faces as they are cruising say it all. Even Chip Foose took a few laps with his family. Friday night ended at 10:00 but the weather was so nice a bunch of people stayed just to talk. It is a big deal to be able to cruise at a show and not just sit in a parking lot for a static show. The logistics and planning that go into this are something else, but we have a group of people in the Riverside East Rotary and The Old Farts Racing Team that pull it off every

year. I am proud to be a part of them! I wish I could name them all but I know I would leave someone out so I really try to avoid that. You all know who you are that put this show on and all I can say is thank you.

Saturday starts off early for me. I was there at 3:50am and we had a ton of cars there already. People get there early just to

...continued from page 3

**Show and Go 2015**

get their spots. Again another smooth day and the weather this year was perfect. We got our Grand Marshal parade under way with every city council person proud to be in it. This year our Grand Marshal was (Ford) Phil Preston. We could not have asked for someone more deserving. Once the parade was done, judging opened up and the cars poured in to see how they would score against the others. The job of our judges is not easy. The quality of hot rods showing up just keeps getting better each year. While that was going on Chip Foose was signing autographs. He really is a cool guy, and a real car person that has made it big time, while never forgetting where he came from. Talking to him he truly enjoys coming to Show and Go every year, and we are glad to have him. Saturday afternoon wound down with people cruising, enjoying the beer garden, winning at our raffle and listening to some great music put on by our MC, Surfer Dave and crew.

This year for Sunday we tried something new to get some people there early, a suicide prevention walk with all of the money collected going to American Foundation for Suicide Prevention in memory of my son Jamie Godfrey. We had a nice turnout for the walk and raised \$7440.00 that we sent to them. We are thinking we could double or triple that next year. Good job to all involved with that! Later in the morning we put up the winning car numbers in the judging area, and started lining them up for the

**Show and Go 2015**

awards, while the crew was cleaning up our base camp. The awards show was awesome because you get to see the best cars that came to our show. We also had two refrigerators to auction off. They both brought in some big money and all of that along with our engine and transmission raffle goes back to local Riverside Charities. At the end of the day, that is what it's all about! Don't forget to check out the pictures on Show and Go's web site. It will take you to Andrea's page and they can be purchased there.

Great job to all involved! On behalf of Finn Comer of The Riverside East Rotary, (Finn works his ass off for this show and I could not ask for a better co-chair), and myself with The Old Farts Racing Team we want to thank you all for putting on what we consider the best car show around!

Thank you,  
Mark G

(One final note, we had a problem getting the window tags out before the show. That problem has been solved and will not be an issue next year.)

# American Legion Construction Report

It's alive, yes, it's alive!!! Let me start by saying that G.O. Architects rendering; vision; interpretation; translation has finally come to life, it is alive. This wouldn't have happened without the unselfish people who have donated their time, their money, their materials, or all of the above.

It is alive because of Steve Bordon & Crew who built all of the block planters, because of Back Hoe Ken and his hoe, Danny "Asshole" Hensley and his dump truck, and Dempsey & Son's Concrete Pump. They made 360 L' of split face block come to life. Joe Van Holland Concrete & Crew made the front handicap ramp and railing come alive. They also poured

the concrete on the backside of the building. Danny "Asshole" Hensley poured the East end of the bar area. Pete Shellenback & Crew set two 5-ton HVAC units with the help of Calvin at Cal Crains. David Arnold & Crew set a projector and 12' screen in

the hall for football and parties. Neway Plastering gave us a great discount to patch and retexture the front parts of the building.

Greg Bacon & Crew have painted 3 sides of the building as we are plastering the front right now.

Our next phase will be building the back bar

# Old Farts and Friends Upcoming Reunion

My how time flies, this year's reunion will be the 20<sup>th</sup>. I remember Roy Goode asking, or do I mean telling, us that we need to do a car show at the American Legion. With a Second Sunday of July date set, we had 3 weeks to put that show on. With a list of trophy sponsors Roy had given us, off we went gathering trophy's at \$10 each. I remember we had 20 trophies that year with a total of 125 cars in attendance. Now we have over 40 trophy sponsors with usually 250 cars in attendance. The rule we set was that no Old Fart would get a trophy, only friends, and it's the same today. We moved the date some 15 years ago to the 2<sup>nd</sup> Sunday in June for cooler weather. This year it's on June 14<sup>th</sup>. We hope to see you all there, be sure to bring a friend.

## My First Car Build

I had my own little milestone of actually getting the frame and body separated! I also managed to get the motor pulled from the truck and even test fitted it into the Chevelle, it'll fit but the transmission's gonna be tight. I also received my suspension bushings and steering parts from PST, but all the rest of my suspension is at the powder coat-ers right now, so you'll have to wait till next issue for pics. I also had time to clean all the old glass and it came out looking real good, no age bubbles at all, going to have them tinted before installing them back in the car. More next time.

Gary W.

*1 Casual-t, This SnG t-shirt did not survive cleaning*

### Here's a couple Internet items I've found.

#### Craigslist

We've all heard of Craigslist, and we either love it or hate it. I have found a few plugins that can really help you in your searches for items on craigslist. They can be used with any Google browser.

First is **"Popup Notifications for Craigslist"**

This is the auto searcher app, it runs all the time your connected to the internet, and looks for your search term. Mine is set to search every 10 minutes for Chevelles and Corvette's.

Next is **"Craigslist Pop for Power Users"**

This app lets you view the ad Without clicking the ad, you just rest your cursor over the ad and a popup will appear of the whole ad, makes it must easier to view them and weed out the good ads.

I've managed to get the jump on some great deals with these apps, including my Air Compressor, an 04 Corvette, and I just found another 73 Chevelle parts car which has most of the parts I'm missing.

### Do you have any parts you want to get rid of?

You can list them on our [Old Farts Parts Facebook page](#).

We've actually had 2 vehicles sold so far, we've listed Engines, Transmissions, Intakes, Ignitions, Dash boards, Chromed Oil Pans, and much more. Who knows, you may find that one part you've been looking for.

relocated (SHELBY MOD), larger anti sway bars, KYB gas shocks, 4 wheel disc brakes and VINTAGE 45 wheels.

Engine is a 289 with basic mods: Holley 600 carb, edelbrock intake, DOUGS headers, X pipe and flowmaster mufflers. Port matched cylinder heads and COMP cam. I have a 331 stroker engine with roller cam, twisted valve aluminum cylinder heads on

an engine stand that will go in some day.....

Interior is basic. Seat pans have been shortened to allow the seats to be approximately 3" lower. CROW 3" lap belts. Dash has the soft cover removed and brackets removed and holes filled and smoothed. Owner machined / fabricated shifter handle. VINTAGE AIR a/c.

*Special Note: Thank you Jim for sending in your online submission.  
We need to see more cars from all of you out there. See Below.*

## Would like your car to be considered for Car of the Issue?

Email us at [contactus@oldfartsracingteam.us](mailto:contactus@oldfartsracingteam.us) with a picture of the car and all the information needed to write about it. Make sure to include a phone number in case we have any questions. Remember we will probably get a lot submitted and we only put out 4 issues a year so be patient with us.

### Are You Busy Right Now?

Would you be interested in some great mindless entertainment?

Come on over to the website and check out [the Members Rides Car Puzzles Page.](#)

It's sure to keep you occupied for at least an hour or so, maybe more.

### Find Us On Facebook!

Yes! We actually have a Facebook page!

Just Click [Old Farts Racing Team](#),  
And like our page.

You'll get random pictures and facts,  
Maybe even something useful.

## Motte's Farms, in Romoland

Saturday, April 25, 2015, we attended due to prior registration and the show was sold out at Motte's Farms, in Romoland. What a show for only 105 cars, since the weather was very cold and windy. Terry Johnson urged many of us to attend, so that we could win the Club Participation award from a local club out of Canyon Lake. We had 22 registered cars, and 19 showed. After our danish & coffee breakfast, we toured the museum. For those of you who have not been to the Motte's Farm place, it's a museum, with 12 very old-restored cars in it, that belonged to the family, on the bottom floor. The top floor is a dedication to the 5 families that started farming out there. The Motte's is one of the 1st farming

families in the area. Not only did we win Club Participation, but several club members also won awards. Terry Johnson, David/Mary Nelson, Harry/Marry Alford and Henry/Janene Hemborg. The raffle was fun, and several vendors were giving away freebies. We were glad to get home, and out of the cold. Later that evening, it rained buckets.

## Happy Heartbeat Show

Sunday, April 26, some of the OFRT's attended the Happy Heartbeat Show in Valley Center, San Diego County. The show was sponsored by the Heartbeat Happening Car Club. What a show it was. It was the first time for some of us. The location was at Bates Nut Farm. Along with a car show, of over 250 cars, there was a craft show, and plenty of vendors. The nut farm was also awesome. A variety of nuts that were very healthy. There were only 9 OFRT couples who attended, but I am going to encourage many of you to attend next year. It was a lot of fun, and plenty to do. Award winners were: Dan/Patsy Welch - Favorite Convertible, Susan Zamora - Favorite Truck, Harry/Mary Alford - DJ's Choice, and David/Mary Nelson - Peoples Choice,

# Beside the Air Compressor

## Due Propers for an Old Friend

By Rotten Rodney

Have you hugged your air compressor today? Here at the home-based hobby shop we do a little paintin' from time to time. Therefore, good lighting and decent ventilation are important, but clean compressed air is an absolute neces-

sity. With that there said, one of my personal pet peeves is the steady hissing sound of air leaks. I can't handle that and I will not have it. As of late I've noticed that our air supply leaks down some overnight, even with the main ball valve closed. Our compressor owes us nothing and deserves a little love. Perhaps it's time to have a look inside its automatic drain valve.

Exploratory surgery of the unit's automatic drain valve is pretty finnessy work, so of course I'll handle this personally.

BOING! Better than any diagram is this 3-D exploded view.

Here on the valve stem, the ordinary-lookin' O-ring is a pricey piece at replacement time. The conical rubber is the big-ticket item, which I think is causin' our precious air to seep down overnight. Now after gettin' into it, the situation worsens. We won't recieve

(ooops, I before E except after C) the parts 'til Monday next week.

At times like these we realize how dependent we are on clean compressed air. Have you hugged your air compressor today?

## Mustache Mikes Mumblings

Here we are, OFRT is 21 years old. Show and Go number sixteen is in the books and as usual was a big success. Now, on June 28th we have the Antique Nationals coming up. The Antique Nats are put on by the Forever Four club and this is their big fund raiser. As you all know this is the event that started the OFRT. It would sure be nice to see just a whole bunch of OFRT members show up to participate either as racers or in the car show. Any car 1954 or older that passes tech can race and cars 1974 and older can show. Ford trucks through 1956 can also race. Tech is generally pretty easy to pass. Helmets and seat belts are required in all cars and NHRA approved roll bar and arm restraints are required in open cars running 13.99 or quicker. Remember, the safety rules are there to protect you. The race is at Fontana on the backside of California Speedway. Enter off Cherry Av. and follow the road around the speedway. In 1994 when we started the club, we actually had 100% of the club members show up with about 8 cars going down track. Over the years we have had several OFRT members bring home trophies. The biggest prize as far as I am concerned is the t- shirt that says winner. I have been trying to win that shirt for over twenty years, maybe this is the year.

M.M.

## Would like your car to be considered for Car of the Issue?

Email us at [contactus@oldfartsracingteam.us](mailto:contactus@oldfartsracingteam.us) with a picture of the car and all the information needed to write about it. Make sure to include a phone number in case we have any questions. Remember we will probably get a lot submitted and we only put out 4 issues a year so be patient with us.

---

Would you like to be a sponsor of the OFRT newsletter? We could sure use a couple more sponsors to help pay for the yearly running costs of our website and newsletter. The cost is \$25 a year, and you get your business card in our newsletter, (4 issues a year) and it's also put in our discount directory in the preferred section.

---

I would like to spotlight Andrea Kaus for always taking the most amazing pictures of our events, she not only takes pics of our horsepower, but she has a great collection of horse photos too. you can check out all her photos anytime at [cha-osgraphics.com](http://cha-osgraphics.com). *Helpful Hint: I really enjoyed her collection by making the pics run a slideshow full screen, you can really see the details of all the great rides.*

---

**Thank You** to the crew that helps with the OFRT newsletter, without their hard work, this newsletter wouldn't happen. Mark Godfrey, Dave Bertino, Sharon Preston, Diane Olvera, Lila Bashim-Casteloës, Willie Martin, "Rotten" Rodney Bauman, Mike Woodward, Andrea Kaus, Russell Utz, Steve Johnson, Denise Wasson-Martinez, Charyle Trujillo, and a few others that I just can't remember right now. G.W.

### Welcome To All New Old Farts !!

Welcome all new members to the Old Farts Racing Team! Our sole purpose is to have old fashioned drag racing fun. You do not need a car to have fun, come with someone who is participating, be a spectator, or build your own car. Gatherings are held on the second Tuesday of every month, at the American Legion Hall #79 at Fairmont Park in Riverside. We have no club officers. We have what we call "meetings", or bullshit sessions, for lack of a better term.
