Old Farts Ride of the Issue

Pat Conastar's 1966 Corvette

its a 1966 427 big block 425 hp with aftermarket heads. M22 rock crusher trans. 373 posi rear gears factory big block 425 car. Has a 1967 stinger hood and 67 wheels w redline tires. The car was a frame off restoration 6 years ago by a doctor that unfortunately died of cancer. It was his baby. I found it in an un heated garage in philly it was just starting to decay from sitting there. With a bunch of cleaning , bit of carb fuel system repairs and it is what you see today. A wild beast making over 500 hp. Its a blast to drive.

Pat owns and runs the Perris Airport and said "it's a family business for 40 years throwing people from airplanes" and they have a car show the first Sunday of every month at the airport, and is a great way to spend your Sunday.

Halloween Car show

RUN TO THE SUN CAR SHOW LAKE HAVASU, AZ.

Our week of fun began on Tuesday the 18th of October at Cary & Kathy Barr's house, she had delicious tacos & Lynda Kane made awesome chicken enchiladas!

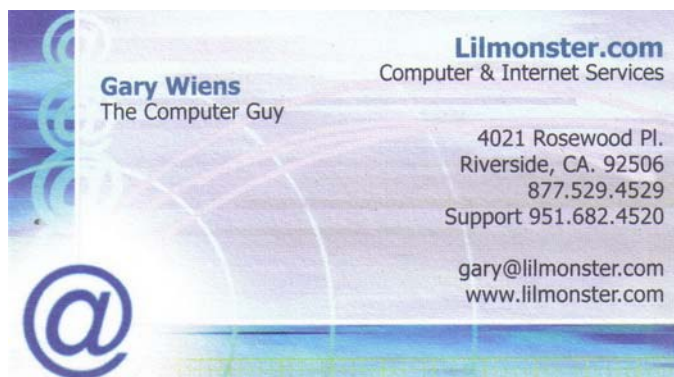

Wednesday Rich & Karen Mehas had their annual lunch & swim party, this year she served filets that were BBQ'd by Rick & Glenn Harris! They did a great job. After lunch we all went for a dip in the heated pool & continued drinking "Sex on the Beach" cocktails Karen makes every year..

Thursday after securing the stakes we bought on Wednesday to save our parking spots on the golf course, we lined up for the Bingo run at different shops around town, none of us ended up with a good card! After the run we met at Dairy Queen for ice cream.

Later [Thursday afternoon](#) we all headed downtown to park on McCollough Blvd for the evening, we women always enjoy going thru the shops that are open while the guys walk around checking out all the cars. The evening always brings out a lot of the local people too that come to see our cars .

[Friday morning](#) most of our group met at SAMs diner (formerly Uncle Kenneys) for breakfast, we completely filled up the back room. Afterwards we all headed to the golf course to park for the day. As usual, there are always a lot of interesting vendors there that interest us & our guys! We all really enjoy the day visiting with each other.

[Friday night](#) they serve us dinner which is always very good, it's amazing to us

Old Farts Parts

Do you have any parts you want to get rid of? You can list them on our [Old Farts Parts Facebook page](#).

You can list Cars, Trucks, Engines, Transmissions, Tires, Tools, Anything Automotive Related is Welcome.

how many people they can serve so fast.

Saturday morning is the highlight of the show for the women! They have a fashion show which has a theme, this year it was Disney, so our group decided to be the Mouseketeer's from the Mickey Mouse Club, so we ordered shirts with Mickey on them & had our own names imprinted on them. We also got bling mouse ears with a red bow to wear & Karen ordered us black flip flops & made us red & black bows for them, a lot of work for her! We had to get up on the stage & we sang parts of the Mickey Mouse song & each held letters (made by Lynda) to hold up while singing the song! Well, we won FIRST place & \$100.00, so we all headed to the bar there in the club house for a drink!!

Later Saturday afternoon they give out the awards three Old Farts won this year: Joe & Vickie Ritter with their 1970 Chevelle, Bruce & Lynn Cooper with their "C" Cab truck & Sharon Harris with her 1957 Chevrolet! Congrats to all of you!

Our club also got a prize (a free entry for next years show) for having over 25 cars participating in the show. We will have a drawing of all the participants to pick who gets it.

Saturday night Karen made us a reservation for a Mexican restaurant, we had one room full, of Old Farts for dinner. The food was delicious & the Margaritas too, we all had a good time visiting & eating, as usual.

We are all looking forward to going again next year. Manuel & Susan Zamora were first timers this year & said they will go back in 2017, they had a great time!!

Sharon P

OUR LAST October Construction Show 4-Years of Work.

Just a small run down of what took place in the last 4 years. I am not going to mention any names of all the great volunteers that worked on the project just what has been done.

To start with we had to patch the roof where the water would just gush in then rip up the wood floors next to the windows, replace the floor joist, rebuild the wall, all new windows & flooring, then off to the front door, when you would close it the walls would shake so it did no good to just replace the door we had to rebuild

the whole entry, moving right along to the mini bar we built a new one and just to the right of that one more wall to rebuild then off to the auxiliary room which was in shambles you could spit out the front window without opening it, you could push the wall with your hand and it would shake (you think I am kidding NOT) so we jumped

in hard & fast with new windows, rebuilt wall, new exterior trim, new floor, new doors. Now we take a breather – OK enough rest – off to those stinky bathrooms total handicap upgrade all new fixtures, tile, lighting and partitions. Now to the stage replaced ceiling tile, textured & paint, re-worked lights, sanded and refinished hall & stage floor,

new hall chandeliers and passage doors, two 5 ton HVAC units in the hall, one 1-1/2 ton HVAC unit in the auxiliary, wheel chair ramp at front of building, 360 L' of split face block planters, new concrete patio with a John Kenney Bar, all new landscape & irrigation, outside lighting, policeman's memorial and we just replace the roof one

week before the car show this has been a BIG 4-year project and I would like to say that **US** the Old Farts Racing Team have gave these Veterans a great place to have a beer or a coke, a dinner or dance. Our building project has come to an end.....just one more thing can anybody say **parking lot.** I will touch base with the next newsletter.

Dave B. #182

My First Car Build

I sold my 75 corvette, mainly to get more money, to buy more parts, to fix my car, that's how it works, right? I bought a rebuilt trans from Rick at Riverside Transmissions, who is listed in our discount directory, very helpful too. I cleaned primed and painted the trans, then started installing it on the motor, then both into the chassis.

G.W.

Do you have any parts you want to get rid of?

You can list them on our [Old Farts Parts Facebook page](#).

So far we've listed Engines, Transmissions, Intakes, Ignitions, Dash boards, Chromed Oil Pans, and much more. Anything Automotive Related is Welcome.

Who knows, you may find that one part you've been looking for.

Telephonetography

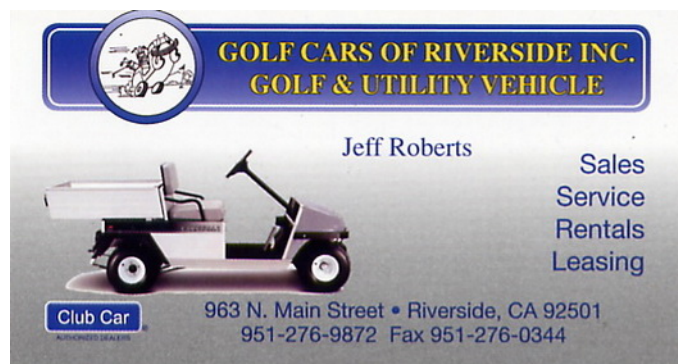

Like it or not, technology changes things

By Rotten Rodney

Doesn't anyone use a camera anymore? What ever happened to photo albums? Nowadays it seems as though we've got to look at somebody's 'phone to see pictures. Now I don't know about you, but I find that rather annoying, 'specially with my crappy eyesight and all. Even so, I'll roll with it. Oftentimes I'll give a courtesy look, nodding and pretending to see tiny, digital images on a 'phone. We'll, I'm just about done with that. In fact, I ain't doin' it anymore.

Despite my feelings for newfangled, picture-taking 'phones, I do realize the day is coming when box-Brownies 'n' rotary-dials won't work anymore. For that reason alone, Mrs. Rotten 'n' I are reluctantly steppin' up. Like it or not, technology changes things, and sooner or later, we also must change with the times. Be that as it may, I can assure you there's one area where I will not waver. Fart's honor, I will never, ever, be one of those guys who'll make you look at tiny, digital images on a 'phone.

Now, not to change the subject, but I've got a column to write here. Where were we last time? It seems to me these rants are usually based on looming deadlines and unpreparedness and such. Well, this should fit that mold, as once again I can't think of a damned thing to write about. At times like these, inspiration can be triggered by vision, so perhaps visual aid would be helpful. We could flip through some pictures, but pictures of what? Hey, you guys like old cars 'n' stuff, right? Here's some pictures of what we've been workin' on.

We got Dad's little T speedster finished up—a couple times now, actually. We'll be blowin' it back apart soon for engine number three. Then it's off to the races—again.

Maybe you've heard, Willie got his little A roadster finished up. In fact, from here it's off to the Grand National Roadster Show.

Mrs. Rotten 'n' friends got 'er little Studie pickup finished up. It's all registered, insured, and fittin' right in on the streets of Montana.

Perhaps next up, or at least in the not-too-distant future, we'll be tearin' into this little Deuce tudor project. We'll do this one at the new Montana-based shop.

Anyway, doesn't anyone use a camera anymore? What ever happened to photo albums? Nowadays it seems as though we've got to look at somebody's 'phone to see pictures. Now I don't know about you, but I find that rather annoying. Fart's honor, I will never, ever, be one of those guys who'll make you look at tiny, digital images on a 'phone.

Find Us On Facebook!

Yes! We actually have a facebook page! Just Click [Old Farts Racing Team](#), And like our page. You'll get random pictures and facts, Maybe even something useful.

ANTIQUA TRACTOR SHOW IN VISTA, CA

OCTOBER 14-15-16

Friday morning our group met out near March AFB Museum so we could caravan to Vista for the antique tractor show.

The group led by Dave & Linda Bertino, followed by Roy & Chris Goode, Stan & Debbie Erasman, Joe & Vickie Ritter, Don & Barbara Faris & Ford Phil & Sharon Preston.

We arrived & were greeted by a very friendly little lady wearing her prairie bonnet!

She got all of us settled in our camping spots.

We all headed out to check out the different things that were being set up, there were a lot of steam engines, hit & miss engines too. Ford Phil has a couple of those so he was really having a good time looking at them & watching them run.

We all loaded up in a wagon & went on a "hay" ride minus the hay, we sat on benches & our driver took us all around the area to check everything out, we had a ball!

Saturday all of us went back to the area where everything was set up, the guys headed out to look at the tractors, Dave has a few so he was really checking all of them out!

The women went into several of the buildings, there was a one room school house with a lot of the old desks & old memorabilia from the 1800's reminded me of Little House On The Prairie!

Another building was full of spinning wheels & weaving looms & the women were demonstrating them for us, very interesting for sure!

There was a parade on Saturday afternoon, we all sat in the bleachers to watch, the owners drove them, couldn't believe that some of the old tractors actually still run!

There were probably 25 or more in the parade!

After watching the parade we all went & had pieces of homemade pies with soft serve ice cream! Very yummy!!

We bar b qued Saturday night & sat around our campfire visiting.

There was another parade when it got dark, the tractors were lit up, very neat!

We had beautiful weather all week-end, sunny & not too hot.

Sunday morning we all packed up our RV's & headed back home.

Everyone had a great time, the guys looking forward to doing it next year, the women-----not so much! Lol

Sharon P.

Deacon Guardrail

Back in January I set some goals – resolutions if you will, for 2016. I am happy to report that I have been able to accomplish one of those goals - the Model A Roadster project that I began in 2004 is finished (or at least as much as a Hot Rod can be finished as there is *always* something to be tweaked here and there). In the two shows that I have displayed the car, it has received “Best of Show” twice! Not bad for a car that wasn’t built specifically as a show car. God certainly has been good to me with this project as He has given me ample opportunity for personal growth in respect to being patient!

I am not a patient man. In my line of work, I need to focus on getting things accomplished in a timely manner so as to keep my customers satisfied and my employees compensated; not to mention keeping the parts suppliers, utilities department, insurance agencies, as well as the federal, state and local authorities paid and happy as well. I am goal oriented and at times very impatient, which brings me to the second part of this article and addresses the second of my resolutions that I set in January. I resolved to read through the Bible again this year and I must say that I haven’t reached my goal. The fact that I am behind in my reading causes me much consternation and brings along a fair share of guilt. I am an impatient man. Fortunately, God knows me a lot better than I know myself and has been working on me in respect to my lack of patience (as well as other things). I have come to realize that I don’t need to read through the Bible just to accomplish my goal but that I just need to read through the Bible! So, I have tweaked my resolve to just read through the Bible – for the rest of my life. My brother said that it’s kind of like the way that the Golden Gate Bridge is painted – the workers start at one end and when they are finished, they go back and start all over again. I like this illustration as the maintenance on the Golden Gate Bridge is never ending and we should never put an end to our relationship with God – we need to continually maintain our relationship with the one who loved us so much, even while we were yet sinners, to send His son to die for us! Besides my daily devotional, I’m going to continue to read through the Bible every day and just keep doing that!

Once again, God has shown this impatient man that He is in charge, not me.

In His Grip,

Deacon Guardrail

Misc. Stuff

We are up to 2451 Members!!!

Would like your car to be considered for Car of the Issue?

Email us at contactus@oldfartsracingteam.us with a picture of the car and all the information needed to write about it. Make sure to include a phone number in case we have any questions. Remember we will probably get a lot submitted and we only put out 4 issues a year so be patient with us.

Would you like to be a sponsor of the OFRT newsletter? We could sure use a couple more sponsors to help pay for the yearly running costs of our website and newsletter. The cost is \$25 a year, and you get your business card in our newsletter, (4 issues a year) and it's also put in our discount directory in the preferred section.

I would like to spotlight Andrea Kaus for always taking the most amazing pictures of our events, she not only takes pics of our horsepower, but she has a great collection of horse photos too. you can check out all her photos anytime at cha-osgraphics.com. *Helpful Hint: I really enjoyed her collection by making the pics run a slideshow full screen, you can really see the details of all the great rides.*

Thank You to the crew that helps with the OFRT newsletter, without their hard work, this newsletter wouldn't happen. Mark Godfrey, Dave Bertino, Sharon Preston, Diane Olvera, Lila Bashim-Casteloes, Willie Martin, "Rotten" Rodney Bauman, Mike Woodward, Andrea Kaus, Russell Utz, Steve Johnson, Denise Wasson-Martinez, Charyle Trujillo, and a few others that I just can't remember right now. G.W.

Welcome To All New ~~Old Farts~~ !!

Welcome all new members to the Old Farts Racing Team! Our sole purpose is to have old fashioned drag racing fun. You do not need a car to have fun, come with someone who is participating, be a spectator, or build your own car. Gatherings are held on the second Tuesday of every month, at the American Legion Hall #79 at Fairmont Park in Riverside. We have no club officers. We have what we call "meetings", or bullshit sessions, for lack of a better term.
